## Clustering using categorical data

▲
28

Posted in General 6 years ago

I have been exploring the Bank Marketing Dataset.
https://archive.ics.uci.edu/ml/datasets/Bank+Marketing

Though it is a supervised learning problem, I am trying to look it from unsupervised perspective(by removing class of the output) and then compare the results of supervised vs unsupervised.

I am trying to do clustering on the data. But some of the features are categorical in
